EXPERIENCE

Full Stack Developer | Excellence Technologies

Noida | Feb 2025 – Present

- Engineered AI-powered web applications integrating OpenAI and AWS Bedrock with RAG pipelines, reducing manual workflow processing time by ~40% by handling, manipulating, and analysing data responsibly.
- Troubleshoot and optimized multi-step web application workflows, identifying performance bottlenecks and implementing caching strategies that reduced test execution latency by 60%
- Worked as part of a team of problem solvers to solve complex business issues from strategy to execution, following risk management and compliance procedures and collaborating with internal stakeholders.

Frontend Developer Intern | Corizo Edtech

Noida | Aug 2023 – Oct 2023

- Delivered 12+ responsive UI components using React.js, CSS, and JavaScript within a 4-member agile team, **shipping features 2 weeks ahead of schedule**.
- Identified and implemented improvements across 5 LMS modules when problems and opportunities arose, improving usability and enabling Node.js/MongoDB integration.

PROJECTS

ContextQA — AI Test Automation Platform — Node.js, Playwright, Appium, Python/FastAPI, PostgreSQL, GCP, AWS [Link](#)

- Owned L2/L3 support for the test-execution engine, triaging client-reported failures using Playwright traces, logs and production DB forensics to identify root causes, documented 120+ recurring failure patterns in an internal knowledge.
- Developed AI self-healing to detect iframe context and repair broken element locators at runtime, reducing customer-reported test failures.
- Partnered with QA and client teams on ticket triage, issue reproduction and release verification, creating test scenarios and rollout documentation.

Mr. White — Pet Health Platform — Next.js, Python, FastAPI, AWS Bedrock, PostgreSQL, Stripe [Link](#)

- Launched a subscription-based SaaS platform with role-based access controls and Stripe-powered billing, serving 200+ test users.
- Developed an AI document processing pipeline using AWS Bedrock and OpenAI — reduced manual data entry by ~60% and strengthened systems and controls through automated validation.

Sovereign Vault — AI Research Platform — Next.js, Python, FastAPI, AWS Bedrock, OpenSearch, Gemini, Perplexity [Link](#)

- Built and supported a multi-LLM platform integrating Claude, Gemini, and Perplexity with semantic search, side-by-side comparison, and page-level citations; troubleshooting live user-reported issues end to end.
- Engineered a RAG pipeline with PDF ingestion and OpenSearch hybrid retrieval, deployed on AWS (EC2, S3, Bedrock) with rollback-safe releases.

TECHNICAL SKILLS

Languages	- Python, JavaScript, TypeScript, HTML5, CSS3
Web & APIs	- REST APIs, Web APIs, WebSockets, Node.js, Express.js, FastAPI
Databases	- PostgreSQL, MongoDB, MySQL, Prisma ORM
Frontend	- React.js, Next.js, Tailwind CSS
Cloud & Devops	- AWS, GCP, AWS S3, Docker, CI/CD
Testing & Support	- Playwright, Appium, Postman, Application Troubleshooting, Root Cause Analysis

EDUCATION

B.Tech in Computer Science & Engineering

Aug 2021 – June 2024

Maharaja Surajmal Institute of Technology, New Delhi | **CGPA: 9.3 / 10**

CERTIFICATIONS

MERN Stack Web Development — Brain Mentors, New Delhi

Data Science & Machine Learning — Coding Ninjas
